

# SILLY YOU THOUGHT I WOULD HACK YOU???

Will I don't need to because I already did hehe....  
Anyways sorry not sorry if you get scared, I just liked it  
the last time so I decided to do it for the last time (good  
rhyme huh?)

I would like to take the opportunity and say thank you  
and goodbye since it's the last coding practice, I guess?  
(I know we have 3 more weeks but this is a message from the future).

*\*A quick note: you should be thankful that we can't add auto  
play sounds*

*And my hacking system is recording you...*

I don't know why I added it I  
thought it is cool
